Cell Sorting Workstation

FIELD OF ACTIVITY

- Flow cytometry - Cell sorting.

Host laboratory Laboratory for the Genomics and Radiobiology of Keratinopoiesis

Supervisory body CEA

Funding bodies CEA - CRIF - Genopole®

Director Michèle Martin

Workstation manager Pierre Vaigot

Contact details Laboratory for the Genomics and Radiobiology of Keratinopoiesis

2, rue Gaston-Crémieux - CP 5722

F-91057 ÉVRY Cedex

EQUIPMENT/FACILITIES

// Mo Flow cell sorter (Beckman/Cytomation)
3 excitation wavelengths (UV, red, blue) and
7 emission wavelengths.

// CyAn Analyzer (Beckman/Cytomation)
3 excitation wavelengths (UV, red, blue) and
9 emission wavelengths.

ACCESS PROCEDURE

The platform may be accessed by all members of the Genopole's public- and private-sector scientific community, subject to specific arrangements with the CEA.
