## Genopole POSTDOCTORAL RESEARCH FELLOWSHIPS: 2017 CALL FOR PROPOSALS

Genopole-Evry has launched a new call for proposals for a fellowship which enables a France-educated<sup>(1)</sup> postdoctoral researcher currently working abroad to return to France. The fellowship is intended to fund a research project in Genopole-based research laboratories or biotech companies.

**The fellowship** is open to all research fields of the Genopole biocluster-Evry: genomics, bioinformatics and systems biology, proteomics, structural biology and biophysics, gene and cell therapy and regenerative medicine, applied life sciences and non-medical biotechnologies; metagenomics, biodiversity and microbial ecology.

**The fellowship is thus only available**

- to a young researcher (whether of French or other nationality) educated in France<sup>(1)</sup>
- and who wish to return to France after having worked abroad with a view to performing a research project in a laboratory or a company in one of Genopole's areas of interest.

**The fellowship total amount is ranged from € 120,000 to € 150,000 (gross salary charged) according to the experience level of the candidate and is allocated for a maximum of 2 years (€ 60,000/year to € 75,000/year).**

All applications must be submitted by the host laboratory, or company where the proposed research project is to be carried out. Campus lab/company profiles can be viewed on our website [www.genopole.fr](http://www.genopole.fr).

Applications (if possible in English <sup>(2)</sup> and set out as stipulated in the attached form) must be received by the Genopole Secretariat **by September 4<sup>th</sup>, 2017, at the latest:**

GIP Genopole  
Secrétariat Genopole® Recherche  
5, rue Henri Desbruères
